1. Early Betirement

Considerable progress was made at the third meeting of the CIA Retirement Board on 25 March 1,65 in achieving a common understanding of the basic purposes of the program, agreement as to policy and legal questions requiring immediate study and resolution, and tentative acceptance of the proposed procedures for screening on-duty personnel to determine those eligible to participate in the system.

It has been agreed that there is a need for a positive educational program to inform employees fully about the system. It is reported that many employees, particularly in the Clandestine Services, view the system os an "upholstered 701" program and will resist being designated as participants.

In response to a request from one of the members of the Board, a memorandum describing the role of the Board was distributed and discussed at the meeting. A copy is attached.

The White House Personnel Office has advised us that a formal request is being prepared to transfer two of our clerical employees to the White House staff. These employees have been on non-reimbursable detail to the White House for a prolonged period and both have expressed willingness to transfer. We have not been asked to provide replacements.

We filled a special requirement for the 60-day detail of an experienced clerk-stemographer to the White House with an employee who had requested recasigment within the Agency and had been released by contine (Security) for this purpose.
